

SUPPLEMENTAL INFORMATION FOR BREEDERS

I am currently involved in breeding Havanese _____ My Kennel name is _____

I am not breeding Havanese personally but some of my dogs are used for breeding purposes ie: Stud Service _____

I am not breeding at this time but intend to in the future _____

I currently breed or intend to breed other types of dogs? _____ Yes _____ NO (If yes please list all other breeds)

I will only breed Havanese that are CKC registered. _____

If using a foreign stud, I will only use dogs that are registered with a CKC approved registry _____

I agree to C.K.C. register ALL puppies from my litters _____

I agree to use C.K.C. non-breeding agreements on all my pet sales _____ If other, please specify _____

I agree to use a written sales contract for all sales in accordance with CKC regulations _____

*** (Please include a copy of your personal sales contract; both non-breed and show/breeding contracts)

I agree to personally follow up that all pet puppies placed are spayed / neutered _____

I agree to CAER my breeding dogs yearly _____

I agree to adhere to the basic principles of ethical breeding according to the HFC Code of Ethics _____

I agree to follow all the requirements of the HFC Health Policy. (see Health Policy under How to become a member section on website)

The following dogs are used in my breeding program or by other breeders - CAER (annual) and Patella checks as well as two additional tests from approved list are mandatory basic health checks for all breeding dogs. If you do not have a CAER# and/or OFA # for these, please include a copy of the testing from appropriate veterinary specialist

In Addition to CAER and Patella, two of the following tests must be completed

- The two additional tests, not including CERF and Patella, can be selected from the following list of tests. (Multiple polls to finalize the list concluded on March 25, 2019)

Approved Tests – not including CERF and Patella

1. OFA Cardiac, or any other OFA certified cardiac exam such as echo etc.
2. OFA Hip, or HIP/LCP combined
3. OFA Penn Hip
4. OFA Elbows
5. OFA Thyroid
6. Biles and other Liver testing BAC etc.
7. BAER
